# BIBLE FACTS

## The Creation of the World; 4004 BC?

The footnotes of many old editions of the Bible state that the creation of the world, as stated in Genesis 1:1, took place in 4004 BC. This date was arrived at by James Ussher (1581-1656), the chief bishop of Ireland in his day. Bishop Ussher was a highly educated and intelligent man. His dating was accepted as accurate for many years until being abandoned in favor of scientific theories and speculations that say that the earth is actually billions of years old. However, over the last 100 years or so, there has been a growing challenge to the old earth teaching and the theory of evolution based on solid Biblical scholarship and scientific facts. I don't know about you, but I don't think it is wise to trust in the ever changing views and theories of imperfect man rather than the unchanging infallible Word of God. I believe that Bishop Ussher got it right. *"In the beginning God created the heaven and the earth"* (Gen. 1:1), and that act of creation took place a little over six thousand years ago.
